- Wi-Fi or LAN login
- PC, Apple, Android, iOS & Chromebook support
- Full-HD 1080p60 video streaming
- Simple user interface
- 1024-bit encryption, dynamic room codes
- 4K-UHD output for VIA Collage and VIA Campus

Forbes

"VIA is one of 5 new technologies you should integrate into your business."

-Ilya Pozin

WHAT VIA USERS ARE SAYING ...

"VIA has become the connectivity and collaboration foundation for many of our classrooms. Its combination of powerful tools, content security and ease of use for our faculty made it an easy decision for me and my team to deploy."

Franklin Jackson, Jr. Classroom Technology & AV Services Manager University of Denver

"We are getting more demand for BYOD, and the VIA Collage fits that niche nicely. The encrypted signal is also a major plus."

John Delmont, Technical Sales, VMI

COLLABORATE WIRELESSLY ANYWHERE

VIA makes presenting, collaborating and sharing content easier and more efficient for any size meeting room, conference room, huddle space, classroom, or training room.

CONFERENCE ROOM

- Video conferencing / unified communication
- Connect up to 255 different devices
- Full suite of collaborative features

HUDDLE SPACE

- Budget conscious connectivity and collaboration options
- Connect from any BYOD including iOS, Android & Chromebook
- Vivid HD video playback

TRAINING ROOM

- e-polling & e-exam functionality
- Advanced content security
- Integration with LMS systems

VIA COLLAGE

Fully-featured wireless presentation & collaboration for a wide range of meeting spaces

VIA Collage offers meeting participants advanced collaboration tools for a wide range of meeting spaces. With any laptop or mobile device, users can wirelessly share any size file, stream uninterrupted full HD video (up to 1080p60), turn the main display into a digital whiteboard and chat with other users.

With VIA Collage, you can present 4K-UHD content on compatible 4K-UHD displays. The solution features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android) and Chromebook. Six user screens can be shown on one main display or up to 12 screens on two displays.

Remote users can easily join the meeting and collaborate in real time with embedded 3rd-party video conferencing and office apps.

VIA CONNECT PRO

Wireless presentation & collaboration for huddle spaces

VIA Connect PRO offers a cost-effective solution for installing wireless presentation and collaboration in multiple huddle spaces. With any laptop or mobile device, meeting participants can share any size file and stream full uninterrupted HD video (up to 1080p60), images and documents. Connect PRO's whiteboard feature lets you annotate, sketch out ideas or edit shared documents on the main display from your device.

VIA Connect PRO features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android), and Chromebook (in models released as of 2017). You can show up to four user screens on a single main display.

VIA CAMPUS

Wireless presentation & collaboration for education, training or any meeting environment

VIA Campus offers advanced collaboration and engagement tools that enhance interactive learning in Education and Corporate Training environments. From any laptop or mobile device, students and teachers can view the main display, edit documents together in real time, share any size file, turn the main display into a digital whiteboard, and more. VIA Campus also lets teachers use e-polling and e-exams to easily and instantly measure how much students are actually learning.

VIA Campus features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android) and Chromebook. Six user screens can be shown on one main display or up to 12 screens on two displays.

Remote students can easily join the class and collaborate in real time with embedded 3rd-party video conferencing and office apps.

NEW VIA GO

Wireless connectivity and advanced presentation for any meeting space

VIA GO offers quick wireless connectivity and advanced presentation technology from any PC, MacBook, Android, iOS, or Chromebook device.

This simple, yet powerful solution offers a cost-effective way to install cutting-edge wireless presentation in multiple small meeting rooms and huddle spaces.

The product can sit on the internal network like other standard devices (for full management and control) and can also be used as a wireless access point for guests. VIA GO features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android) and Chromebook. You can show up to two user screens on a single main display.

VIA PAD

Now it's easier than ever to share what's on your PC or laptop with everyone in the meeting.

Using capacitive and proximity technologies, VIA PAD lets you instantly show your screen on the main display. Just plug it in and present. No driver download.

VIA SITE MANAGEMENT

VIA Site Management is a software application that lets administrators easily view and configure manage all VIA devices within the same network. You can check the status of each device, remotely maintain and configure devices and see who is logged in. You can also perform VIA firmware updates and get statistics and alerts.

NEW VIAWARE

**Wireless presentation & collaboration
for education, training or any meeting
environment – As a software-only solution!**

All the advanced wireless presentation and collaboration tools offered by VIA Campus can now be used on your own PC. VIAware can be installed on any computer running Windows 10, providing IT managers the versatility they need. VIAware works seamlessly with your existing VIA clients and offers full support for all VIA Quick Connect features, such as QR Code, NFC Tag and VIA Pad.

VIAware is available as a one-time license with optional annual upgrade subscriptions or as a recurring monthly subscription.

FEATURES

Wireless Connection

Connect wirelessly with your own device

Mobile Mirroring

Show any content from your iOS or Android device on the main display

Full HD Video Streaming*

Share uninterrupted full HD wireless video streaming (up to 1080p60) and photos

Files*

Drag and drop files to the Files folder to share instantly with other users
